## Welcome Address

Distinguished faculty, esteemed guests, dear students, and friends,

On behalf of the International High School of Nanjing Xianlin Foreign Language School, it is our great honor and privilege to welcome you to the launch of the Student Social Responsibility Program. The SSR Program

Today marks the beginning of an important journey—one that extends beyond academics, into the heart of what it means to be responsible global citizens. At NFLSXL, we believe education is not only about excelling in the classroom but also about learning to care, to lead, and to serve. Through this program, our students will have the opportunity to engage with their communities, address pressing social issues, and contribute meaningfully to the world around them.

The SSR Program is built on three pillars: learning, serving, and leading. Together, these pillars empower our students to transform awareness into action, and compassion into change. Whether through local outreach in Nanjing, environmental initiatives, or global collaborations, our students are stepping forward as leaders of tomorrow.

I would like to extend my gratitude to our dedicated teachers, supportive parents, and community partners who make this vision possible. Most of all, I want to commend our students—the driving force behind this initiative—for their passion, creativity, and courage to make a difference.

Let us celebrate this milestone and look ahead with optimism. May this program inspire us all to act with responsibility, to serve with humility, and to lead with vision.

Thank you, and welcome once again to the NFLSXL IHS Student Social Responsibility Program.

## Purpose & Rationale

The SSR Program is a student-led civic engagement initiative designed to promote ethical leadership, social consciousness, and active citizenship among high school students in the International High School (IHS).

By connecting academic learning with real-world action, students develop the ability to think critically, act compassionately, and lead responsibly.
